Weakness in Hog Prices Carries Provisions Down.

newspaper men who hang around the state house, and thereby started something that is not easily stopped—a flow of public sentiment. Since the publication of Mr. Coburn's letter, a number of persons outside the state and dozens within the state have taken chips in the game and offered cash to assist in the prosecution. It is evident that the newspaper men put more stress upon the Coburn letter to the attorney general than they did upon the attorney general's statement that the county attorney of Franklin county was conducting the prosecution in an able manner, and, apparently, did not need any assistance from hired attorneys or the attorney general's office.

Here are a few of the outside letters received by Mr. Coburn since the publication of the letters he wrote to Attorney General Dawson:

In response to your kind offer to assist the poor girl. Miss Chamberlain, to cause her cowardly assailants to be prosecuted and punished. I beg to enclose herewith \$10 for said purpose. Be good enough to let me know how the poor girl is doing and if she needs any pecuniary aid shall be glad to help her as far as my ability will permit me. I am glad to know there is one man in the great state of Kansas.

ALBERT SILVA. Chicago, Sept. 19.—WHEAT—Scantiness of receipts northwest gave the wheat market today a firm tone. On both sides of the acnadian line arrivals were far short of the arrivals last week or on the corresponding day a year ago. An estimate of only 126,000,000 bushels in the Dakotas and Minnesota, for milling and shipping, also had a bullish effect but a substantial increase in the European visible supply afforded the bears considerable comfort.

comfort.

The opening was the same as last night to 150% to 150% up. December started at 95% to 365%, unchanged to 16c advance, touched 35% and rallied to 35%. Fine weather for the threshing in the northwest brought about a decline but recovery followed because of the strength of Liverpool cables. The close was steady with December at 35%, a net gain of 2c.

If the clipping enclosed gives the true facts in the case I should like to help imprison the fiendish crowd and should also like to see the young lady sue for \$100,000 damages. Kindly let me know more about it.

R. H. PUTMAN.

Cleveland, O. Inclosed please find one dollar from a landscape gardener, to help place those men in prison who outraged that poor girl teacher. And the friend that had taken her out to ride and into the trap is no better, and he should get more than one year in prison. Should I be in such a position with a lady I should fight every inch of ground should the last ditch be my grave rather than permit such an outrage, let her be rich or poor.

New York Stock Market.

Wall St., New York, Sept. 19.—STOCKS—A heavy tone prevailed at the opening of the stock market today following the lead of the London market, where prices of the International issues sold off sharply. Selling was especially heavy in United States Steel and the Harriman stocks. Canadian Pacificiant 19. United States Steel 19. and Southern Pacific and American Smelting a point. International Harvester sold at 100% and broke its low price of the year.

The decline was of brief duration, enough short covering and new buying developing at the lower levels to send prices back to yesterday's closing or beyond. United States Steel did not rally proportionately with the rest of the list and met stock after it had reached 61.

Foreign influences were largely responsi-

and met stock after it had reached G.
Foreign influences were largely responsible for unsettlement of the stock market today; the increase in the German bank rate of discount to 5 per cent although it had been forecast served to emphasize the disturbed conditions abroad and presented the possibility of an increase in the Bank of England's rate this week.
The unfavorable effect on the Berlin market of the change in the German rate was accentuated by serious disturbances in Spain and Austria.
The Copper stocks were singled out for pressure and Amalgamated Copper and American Smelting declined over a point. Other stocks displayed heaviness at intervals but the indications of support manifested after the early weakness depressed selling and recovered somewhat before midday. Western Union gained a point.
